

P I A G G I O
Avanti
P180

The Piaggio Avanti P180 is the epitome of luxury and efficiency. This twin turboprop airplane, driven by two jet-engines, travels faster than even some business jets.

Certified to fly up to an altitude of 41,000 feet, the P180 Avanti soars as high as airliners, undeterred by even the most inclement weather. The sleek design of the Avanti ensures a smooth trip similar to that of a first-class commercial flight.

PERFORMANCE
